TM & TNB in collaboration to accelerate broadband reach for the nation

Both GLCs to capitalise on combined capabilities to ensure successful delivery of Nationwide Fiberisation Plan

Telekom Malaysia Berhad (TM) and Tenaga Nasional Berhad (TNB) today signed a Memorandum of Understanding (MoU) to jointly develop an implementation plan to deliver on the Government's Nationwide Fiberisation Plan (NFP).

This collaboration will capitalise on the combined strength of both Government-Linked Companies (GLCs) in terms of reach, infrastructure and expertise. In particular, the synergies will enable the most efficient cost structure, and further accelerate the fibre broadband network reach. This is in line with the Government's aspirations to drive Malaysia's Digital Economy; as envisioned under both the NFP as well as the High Speed Broadband (HSBB) projects.

Further, the roll-out under TM and TNB, as two (2) of Malaysia's leading institutions, ensures the safety and security of the nation's strategic and critical infrastructure. The proposed network will also continue the existing open access participation of industry players to promote private sector competition in retail broadband.

The MoU was signed by Dato' Sri Mohammed Shazalli Ramly, Managing Director/Group Chief Executive Officer of TM and Datuk Seri Ir. Azman Mohd, President/Chief Executive Officer of TNB.

The MOU is subject to a definitive agreement to be signed between the parties upon finalisation of the commercial terms. Further announcements will be made in due course, as and when appropriate.

Released in Kuala Lumpur on 16 January 2018
