

GREEN ELECTRICITY TARIFF (GET)

To enable electricity consumers **to reduce their carbon footprint in electricity consumption**, the government has introduced the **Green Electricity Tariff (GET)** to offer low carbon electricity supply to all consumers.

GET Benefits

Enable consumers to **subscribe to green electricity supply** from utility companies.

Support the growth of the country's **Renewable Energy (RE) industry**.

Enable companies to **meet Environmental, Social & Governance (ESG) commitment** as well as reduce their carbon footprints from electricity consumption.

GET Features

Subscribers to Pay:

Standard applicable tariff as per the Tariff Schedule for their monthly electricity consumption.

Additional payment of 3.7 sen/kWh for the total RE generation subscribed.

Subscription in Block:

Residential :
1 block = 100kWh

Non-Residential :
1 block=1,000kWh

Internationally Recognized:

Receive **Malaysia Renewable Energy Certificate (mREC)** certified by internationally accredited registries.

Notes:

- Consumers can subscribe on the myTNB portal (www.mytnb.com.my) starting 1 Dec 2021.
- The GET subscription will be effective for total electricity consumption from 1 Jan 2022.
