EITA UNIT GETS RM48M TNB UNDERGROUND CABLE JOB

PETALING JAYA: Eita Resources Bhd 60%-owned subsidiary TransSystem Continental Sdn Bhd (TSC) has received a RM48.94 million contract from Tenaga Nasional Bhd (TNB) to carry out double circuit 132kV underground cable works from the Ujong Pasir substation to the Pulau Melaka substation. The group told the stock exchange that the contract will come into effect today and will take 605 days to complete. It is also expected to contribute positively to the earnings of Eita group over the duration of the contract. TSC's speciality is in the implementation electrical substation ranging from LV to EHV up to 500kV. It also involved in the local manufacturing of Control Protection relay panels, Marshalling Kiosk, Metering Panels and related equipment to complement primary substation implementation business. The stock rose 4.03% to close at RM1.29 with 14,200 shares done.
