Jati Tinggi wins RM80mil TNB contract

PETALING JAYA: Jati Tinggi Group Bhd has secured a contract from Tenaga Nasional Bhd or TNB to perform contract works for 275kV of bulk supply to a data centre (DC) in Pasir Gudang, Johor, worth RM79.86mil.

In a filing with Bursa Malaysia, the infrastructure utilities engineering solutions provider said the nature of the contract is to lay 275kV of double circuit underground cables for connection to a DC in Johor.

“The contract will be effective from March 2, 2026 and will be completed within 270 days from the commencement date of the contract, which will be determined later.”

Jati Tinggi said the job is expected to contribute positively to the future earnings, earnings per share and net assets per share of the company over the duration of the contract. It will not have any effect on the share capital of the substantial shareholders of the firm.
