Southern Cable secures additional RM121.1 mln orders from TNB

KUALA LUMPUR: Southern Cable Group Bhd has secured an additional RM121.1 million orders to its existing contract from Tenaga Nasional Bhd (TNB) for the supply of underground power cables and conductors.

In a filing with Bursa Malaysia, the cable and wire manufacturer said the addition follows TNB decision to increase its orders under the existing contract awarded to Southern Cable in February 2025, which is being carried out

by its subsidiary, Southern Cable Sdn Bhd, for TNB's Distribution Network Division.

"The increase raises the total contract value with TNB to RM524.6 million, up from the original RM403.6 million," the company said.

Southern Cable managing director Tung Eng Hai said the variation order reflects TNB's continued confidence in its ability to deliver the cables critical to the national power grid.
