BRIEF

'Power tariff hike will not burden people'

KUALA LUMPUR: The Energy Transition and Water Transformation Ministry has given its assurance that new electricity tariffs in Peninsular Malaysia under the Incentive Based Regulation mechanism for Regulatory Period 4 will consider the wellbeing of the people. Deputy Prime Minister Datuk Seri Fadillah Yusof said an increase that burdened the people was not allowed. He said his ministry, through the Energy Commission, had engaged with industry players and the business community on Jan 13 and Feb 5 on this matter. **Bernama**
