**MAYBANK TO BUY MALAYSIA  
RENEWABLE ENERGY CERTS**

PETALING JAYA: Malayan Banking Bhd (Maybank) signed a letter of intent with Tenaga Nasional Bhd's (TNB) wholly owned subsidiary TNBX Sdn Bhd to purchase Malaysia Renewable Energy Certificates (mRECs) equivalent to 70% of its Malaysian operations' Scope 2 carbon emissions. This will make Maybank the first bank in Malaysia to purchase these non-tangible energy commodities to support renewable energy generation as part of its sustainability goals.
