**> Safety first**

Reference to "KTMB to ramp up awareness against trespassing" (*Sunday Star*, July 7; online at [bit.ly/star\\_ktmb](http://bit.ly/star_ktmb)): I am glad this is being done, as there have been some 17 people killed in accidents with trains last years, as I understand it. I also note that according to the Energy Commission of Malaysia, on average there are 58 electrical accidents yearly. Let us work on to reduce them and kick start electrical safety in the country. – Bulbir Singh, Seremban
