Kejuruteraan Asastera to acquire biogas power plant in Kedah for RM15 mil

KUALA LUMPUR (Nov 9): Engineering and energy solutions provider Kejuruteraan Asastera Bhd (KAB) is expanding its sustainable energy solutions (SES) segment through the proposed acquisition of the entire equity of Future Biomass Gasification Sdn Bhd (FBG) for RM15 million. In a Bursa Malaysia filing on Wednesday (Nov 9), KAB said FBG, a wholly owned subsidiary of Future NRG Sdn Bhd (FNSB), owns a biogas power plant in Kedah with an installed capacity of 2.4 megawatt. KAB said it would benefit from long-term recurring income via FBG's existing renewable energy power purchase agreement (REPPA) with Tenaga Nasional Bhd (TNB). It said the REPPA is effective for 16 years from March 2018 until March 2034, which enables FBG to supply power to the national grid. — *Surin Murugiah*
