PETRA considers extending Suria MADANI programme, approved applicants given until March 2027

KUALA LUMPUR: The Ministry of Energy Transition and Water Transformation (PETRA) is assessing the possibility of improving or extending the implementation of the Suria MADANI or SuRIA Home (Sustainable Rebate and Incentive Assistance Home) programme after its implementation period ends on Dec 31, 2026.

Deputy Prime Minister and Energy Transition and Water Transformation Minister Datuk Seri Fadillah Yusof said the government was still considering the need to continue the programme next year.

However, he assured that consumers who had applied and received approval would still be eligible to receive the rebates offered, even if the installation of solar systems in their homes had not been completed after the programme ended.

He said the installation for approved applicants must be completed by March 2027 to enable them to enjoy the rebate.

"Regarding Suria MADANI, we still have a balance of RM90 million. So we will continue," he said during a question and answer session at the Dewan Rakyat in reply to a supplementary question from Datuk Mohd Isam Mohd Isa (BN-Tampin) regarding the duration of the Suria MADANI programme after Dec 31, 2026 as well as PETRA's guarantee to solar roof approval recipients who have not completed installation when the programme ends. — Bernama
