Daya Cipta short-listed for Pahang solar plant project

KUALA LUMPUR: Eden Inc Bhd's unit, Daya Cipta Sdn Bhd, has been short-listed by the Energy Commission for a 29.99-megawatt (MW) solar plant in Kuantan, Pahang.

The power purchase agreement with Tenaga Nasional Bhd (TNB) will last 21 years, with commer-

cial operations starting by July 28, 2027. The project will be funded by bank loans and/or internal funds.

While it won't impact Eden's earnings or assets in financial year 2025, it is expected to contribute to future earnings and assets once operational.
