# TNB acquires 61 Isuzu lorries

**TENAGA** Nasional Berhad (TNB) recently received 61 new units of the Isuzu Elf NPR75UKHW crew cab light-duty lorries (*pix*) from Isuzu Malaysia.

The lorries were procured from Automotive Corporation Malaysia Sdn Bhd (ACM), an authorised dealer of Isuzu Malaysia.

The newly-procured units are part of TNB's fleet expansion for their support lorries, and are expected to be utilised for field support services, having been customised accordingly to suit the national electric provider's key task of serving the nation promptly and efficiently.

Prior to the official handover ceremony, a training session was held earlier on the same day for TNB's staff and drivers, with topics ranging from product theory, basic vehicle maintenance and pre-delivery inspection.

The 61 units procured by TNB are equipped with roller shutter function, aside from the double cabin interior that can comfortably accommodate up to five adult passengers.

In addition, the Elf light-duty lorry's heavy-duty common rail diesel

engine delivers powerful output and performance, while ensuring fuel efficiency and reliability, to meet the rigorous demands of TNB's day-to-

day operations.

In his speech during the handover ceremony, Isuzu Malaysia CEO Koji Nakamura expressed his confidence

that the new Elf lorries will assist the utility company in ensuring the nation's electrical needs are met in a timely and reliable manner.
