TNB signs Energy Wheeling Agreement phase 2 under LTMS 2.0

KUALA LUMPUR: Tenaga Nasional Bhd (TNB) has signed a tripartite Energy Wheeling Agreement phase two (EWA phase 2) under the Lao PDR-Thailand-Malaysia-Singapore Power Integration Project phase two (LTMS-PIP 2.0), enabling the transmission of electricity from Lao PDR to Singapore.

The tripartite agreement was signed today between TNB, Electricité du Laos and the Electricity Generating Authority of Thailand.

In a filing to Bursa Malaysia on

Thursday, TNB said EWA phase 2 enables the sale, transmission and purchase of electrical energy at a minimum of 30 megawatts from Lao PDR to Singapore through Thailand and Malaysia, using the participating countries' existing interconnection facilities.

The agreement will be effective for a period of two years beginning from the signing date of Jan 14, 2026.

"The role of TNB under EWA phase 2 is to wheel or transmit energy generated from Lao PDR

to Singapore, with Electricité du Laos paying wheeling charges to TNB for the wheeling services.

"This arrangement completes the full implementation of LTMS 2.0, together with the previously inked Energy Supply Agreement between TNB and Keppel Electric Pte Ltd on Sept 20, 2024, for Malaysia to also supply electricity to Singapore under the same LTMS 2.0 framework," it said. — Bernama
