## TNB to announce broadband plan in January

**KUALA LUMPUR:** Tenaga Nasional Bhd (TNB) will announce the details of its plan to enter the broadband services market in January.

President and chief executive officer Datuk Seri Ir Azman Mohd said TNB was in the process of communicating its plan to the relevant ministries.

"I think you will hear more about this (the project details) in January," he told reporters after the launch of the TNB Integrity Day 2018 here yesterday.

TNB is planning to enter broadband market by utilising its existing fibre optic network across the nation and it is currently running a pilot project in Melaka.

"I will say that the project, technically, has been very successful. However, there will be no more pilot projects," he said.

Meanwhile, TNB also launched its TNB corporate integrity management system (TCIMS) handbook as part of its efforts to strengthen integrity among its employees.
