TNB's fibre optic unit Allo Technology to facilitate 300,000 premises in Peninsula

IPOH (Feb 21): Tenaga Nasional Bhd's (TNB) fibre optic network carried out by its wholly-owned subsidiary Allo Technology Sdn Bhd targets to expand its high-speed broadband connectivity to 300,000 premises in Peninsular Malaysia by year-end. TNB chairman Datuk Seri Hasan Arifin said Allo Technology's fibre optic infrastructure network is accessible by more than 180,000 premises in Melaka, Perak, Kedah, Penang, Selangor, Kuala Lumpur, and Johor to-date. He said the infrastructure was developed to support the National Digital Network (Jendela) and is able to bridge the digital divide among the people, especially in rural areas. — *Bernama*
