Jati Tinggi-Worktime Engineering joint venture bags TNB contract

PETALING JAYA: Jati Tinggi Group Bhd's wholly owned subsidiary, Jati Tinggi Holding Sdn Bhd, in collaboration with Worktime Engineering Sdn Bhd, has secured a significant infrastructure contract from Tenaga Nasional Bhd (TNB).

In a Bursa Malaysia filing yesterday, the Jati Tinggi-Worktime Engineering joint venture received a letter of acceptance (LoA) dated July 21, 2025, from the national utility company to undertake the design, supply, installation, testing and commissioning of insulated lead-sheathed 33kV submarine cables and accessories at Sungai Manjung in Lumut, Perak.

The project, valued at RM19.41 million, will see the dismantling and replacement of existing submarine cables with new systems to enhance the local electrical infrastructure. This includes the supply of piping, new submarine cables, necessary accessories, and the full scope of testing and commissioning works.

The contract is expected to be completed within 365 days from the commencement date, which will be determined later.

The Jati Tinggi-Worktime Engineering joint venture was formalised through an agreement signed on May 13, 2025. Jati Tinggi Holdings holds a 70% stake in the joint venture and Worktime Engineering the remaining 30%.

Jati Tinggi's board of directors anticipates that the contract will positively contribute to the group's future earnings, earnings per share and net assets per share throughout the contract period.
