## ‘Tariff revision will be positive for Tenaga’

**KUALA LUMPUR:** RAM Ratings Services Bhd expects the electricity tariff review to have a slightly positive impact on Tenaga Nasional Bhd. In a statement yesterday, RAM said the rate revision, effective January 1, will amply cover Tenaga’s higher fuel costs and escalating operational expenses. “We believe the implementation of an imbalance-cost-pass-through mechanism, accompanied by the incentive-based regulation, should help preserve Tenaga’s long-term financial profile. “This reinforces our expectation of solid and consistent government support for Tenaga (rated AAA/stable/), given its critical role as national electricity company,” it said.
