UNSUNG FRONTLINERS: Tenaga Nasional Bhd (TNB) Grid Maintenance Department technicians Halim Abd Kadir (left) and Ahmad Shaid Ishak diligently and thoroughly replacing a damaged insulator disc in the 132kV Bukit Beruntong line tower. It is critical work that must be completed even during the Full Movement Control Order, or total lockdown, to ensure that consumers get uninterrupted electricity supply in their homes. Halim and Ahmad Shaid are TNB's technical staff who need to be out on the grounds from time to time, regardless of rain or heat, to ensure the supply is always stable.
