

## PRESS RELEASE

S.A. 2023/08/24\_46 (HQ)

### TNB UNITES LEADING GREEN INDUSTRY PLAYERS AT THE ENERGY TRANSITION CONFERENCE

**Tenaga Nasional Berhad (TNB)**'s maiden Energy Transition (ET) Conference 2023 has garnered strong support from advocates of sustainable energy and clean technology locally and globally. The event aims to drive tangible progress and expedite a responsible transition towards sustainable energy.

**Dato' Indera Ir. Baharin Din, President and CEO of TNB** emphasized the nuanced balance required to navigate the energy transition "Our pursuit of energy transition hinges on balancing security and affordability of supply while addressing the paramount challenge of climate change," stated Baharin. He further highlighted the potential of collective collaboration to hasten the deployment of renewable technologies and the development of innovative energy solutions that foster a cleaner, sustainable future.

Baharin acknowledged the invaluable support extended by partners, expressing optimism that the two-day conference would yield substantial strides in curbing global carbon emissions and mitigating warming. The ET Conference represents a united endeavour uniting diverse stakeholders to expedite the energy transition.

TNB, cognizant of the pivotal role cross-sector cooperation and industries plays, is bringing together subject matter experts, industry leaders, policymakers, and practitioners to drive a responsible energy transition at the regional level, Baharin noted.

The conference boasts esteemed top Diamond partners, including Auto Bavaria, Hyosung Corporation, K2 Strategic, Sunway Group, and Trilliant. Auto Bavaria, a green mobility partner, spearheads automotive retail and distribution across the Asia Pacific. Hyosung Corporation, an energy partner, holds sway across sectors such as chemicals, machinery, IT, trade, and construction. K2 Strategic, the data infrastructure partner, offers hyper-scale digital infrastructure and cloud services. Sunway Group is dedicated to sustainable cities and advancing UN Sustainable Development Goals, while Trilliant, the digitalization partner, brings advanced metering infrastructure solutions, recently establishing manufacturing operations in Malaysia.

In the Gold category, prominent partners include Gentrack Group Ltd, Huawei Malaysia, Malakoff Corporation Berhad, and Trina Solar Co Ltd. Gentrack Group pioneers cleantech solutions empowering global utilities, and Huawei Malaysia specializes in telecommunications equipment, consumer electronics, and enterprise solutions. Malakoff Corporation, an

Independent Power Producer, underscores energy excellence and environmental stewardship, while Trina Solar Co Ltd leads in photovoltaic solutions and solar energy projects worldwide.

Our distinguished Silver partners, China Harbour Engineering Company Ltd (CHEC), IHI Group, Oracle Corp Malaysia, and Siemens AG, bring expertise in infrastructure construction, heavy industry manufacturing, software technologies, and intelligent infrastructure and mobility solutions, respectively.

The conference, augmented by 20 esteemed Bronze partners, is set to unfold at the Kuala Lumpur Convention Centre from August 28 to 29, 2023.

Spanning 7,500 square meters of exhibition space, the event anticipates over 2,000 delegates representing diverse industries. The platform will foster networking and engagement among key stakeholders in energy, green mobility, sustainable cities, and digital sectors.

The conference's agenda includes a diverse array of speakers and panels discussing pertinent subjects like the future of energy, green mobility, sustainable cities, digitalization, and the role of sustainable energy in the global economy.

The ET Conference 2023 is a pivotal milestone, poised to shape the energy landscape. Baharin extended a warm invitation, stating, "We eagerly anticipate your presence at The Energy Transition Conference 2023. Let's convene to co-create a Better, Brighter future together!"
