F. EXPLANATORY NOTES

(Amounts in RM million unless otherwise stated)

1) BASIS OF PREPARATION

These unaudited condensed interim financial statements of the Group have been prepared in accordance with Financial Reporting Standards ("FRS") 134 "Interim Financial Reporting", issued by Malaysian Accounting Standards Board ("MASB") and paragraph 9.22 and Appendix 9B of the Listing Requirements of Bursa Malaysia Securities Berhad, and should be read in conjunction with the Group's audited financial statements for the year ended 31 August 2011.

Within the context of these financial statements, the Group comprises the Company and its subsidiaries and the Group's interest in associates and a jointly controlled entity as at 31 August 2011. The explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the group since the year ended 31 August 2011.

2) AUDIT QUALIFICATION

The annual audited financial statements for the financial year ended 31 August 2011 were not subject to any qualification.

3) CHANGES IN ACCOUNTING POLICIES

The accounting policies applied are consistent with those adopted for the annual financial statements for the year ended 31 August 2011 except for the adoption of new standards, amendments to standards and IC interpretations that are mandatory for the Group with financial year beginning 1 September 2011.

New standards, amendments to standards and IC interpretations that are applicable to the Group effective 1 September 2011

- Amendment to FRS 2 "Group Cash-settled Share-based Payment Transactions"
- Amendment to FRS 7 "Improving Disclosures about Financial Instruments"
- IC Interpretation 4 "Determining whether an arrangement contains a lease" ('IC 4')
- IC Interpretation 14 "FRS 119 The Limit on a Defined Benefit Asset, Minimum Funding Requirements"
- IC Interpretation 19 "Extinguishing Financial Liabilities with Equity Instruments"
- Improvements to FRSs (2010)

Except for IC 4, the adoption of the following IC Interpretation and amendments to FRSs and IC Interpretations that came into effect on 1 September 2011 did not have significant impact on the unaudited condensed consolidated financial statements upon their initial application.

Adoption of new accounting policies and changes in accounting policies

The adoption of IC 4 requires the Group to identify any arrangement that does not take the legal form of a lease, but conveys a right to use an asset in return for a payment or series of payments. The interpretation provides guidance for determining whether such arrangements are, or contain, leases that should be accounted for in accordance with FRS 117 – Leases.

The Group has identified arrangements that contain leases and reported these arrangements in terms of FRS 117. The retrospective adoption of this interpretation resulted in the recognition of assets, corresponding finance lease liabilities, reallocation of non-controlling interest and restatement of lease changes, as detailed in Note 31.

15) REVIEW OF PERFORMANCE

- (a) Performance of the current year ended 29 February 2012 (2nd Quarter FY2012) against the corresponding year ended 28 February 2011 (2nd Quarter FY2011):

The Group recorded a 12.8% or RM1,912.7 million improvement in sales of electricity from RM14,894.7 million to RM16,807.4 million. This was mainly due to an increase in sales of electricity in Peninsular Malaysia and the tariff increase of 7.12% on 1 June 2011. The electricity demand grew by 4.1% in Peninsula and 4.8% in SESB as compared to the corresponding period last financial year.

Profit attributable to the owner's of the Company for the period under review was RM2,590.5 million as compared to RM1,470.5 million in the corresponding period last year, an increase of RM1,120.0 million or 76.2%. The increase is mainly due to the fuel cost compensation received from the Government and PETRONAS during the quarter amounting to RM2,023 million.

The appreciation of the Ringgit has resulted in a foreign exchange translation gain of RM209.3 million as compared to RM47.6 million in Q2 FY2011.

15) REVIEW OF PERFORMANCE (CONT'D)

- (b) Performance of the current second quarter (three months) FY2012 against the corresponding second quarter (three months) FY2011:

The quarter recorded a total sales of electricity of RM8,329.2 million against RM7,348.3 million for the same period last financial year. The improvement was mainly from sales of electricity in Peninsular Malaysia and SESB which recorded an increase of 12.8% and 18.6% respectively. This was mainly contributed by the increase in tariff in Peninsula of 7.1% and SESB of 14.7%. The units sold also registered a growth of 4.3% in the Peninsula and 4.2% in SESB as compared to the corresponding period.

Other operating income increased by more than 100% as compared to the previous quarter, due to the compensation received from the Government and PETRONAS during the quarter under review.

16) MATERIAL CHANGES IN THE QUARTERLY RESULTS COMPARED TO THE PRECEDING QUARTER

Performance of the current quarter (2nd Quarter FY2012) against the preceding quarter (1st Quarter FY2012):

The Group reported a total sales of electricity of RM8,329.2 million for the current quarter, a decrease of 1.8% as compared to the preceding quarter which reported sales of RM8,478.2 million. For the quarter under review the operating expenses were lower compared to the preceding quarter mainly due to lower generation costs from reduced utilisation of oil and distillate.

The strengthening of the Ringgit against the Japanese Yen and the US Dollar during the quarter under review resulted in a higher foreign exchange translation gain of RM628.4 million compared to a loss of RM419.1 million recorded in the previous quarter.

Profit Before Tax (PBT) increased by more than 100%, an increase of RM3,800.5 million as compared to the prevailing quarter, from a loss of RM215.4 million to a profit of RM3,585.1 million for the current quarter (Q2 FY2012). This was mainly due to the compensation received of RM2,023 million from the Government and PETRONAS (Note 5).

17) PROSPECTS

The Malaysian economy is projected to experience a steady pace of growth of 4% - 5% in 2012 based on the report from Bank Negara Malaysia as published on 21st March 2012. The steady growth is expected to be driven mainly by domestic demand and the ongoing implementation of projects under the Economic Transformation Plan (ETP).

Given the projected GDP growth in 2012 and past years' electricity growth, demand is expected to be better in the 2HFY12 compared to 1HFY12. Though the volume of gas supply has shown an improvement commencing from January this year, it is still lower than prior years. The volume of gas supply to the power sector is expected to continue to be lower than the required level. Thus, the usage of alternative fuels will still be required in the 2HFY12 to fulfill the expected increase in demand.

For financial year 2012, the Group is expected to record a better performance than last year mainly due to the improvement in gas volume, implementation of fuel cost sharing mechanism and higher coal plant availability.

Given the foregoing scenario, the Board of Directors expects the Group's prospects for the year ending 31 August 2012 to improve compared to the last financial year.

18) VARIANCE OF ACTUAL PROFIT FROM FORECAST PROFIT

This note is not applicable.

19) TAXATION and ZAKAT

Taxation and Zakat for the reporting period comprised the following:-

	Individual quarter		Cumulative

For the reporting period ended 29 February 2012 the Group recorded a 23.1% effective tax rate. The effective tax rate is calculated based on 'Total Tax Expenses' (Including Deferred Tax) as a percentage of 'Profit before Tax', which includes foreign exchange gain. 27) REALISED AND UNREALISED PROFITS

On 25 March 2010, Bursa Malaysia Securities Berhad ("Bursa Malaysia") issued a directive to all listed issuers pursuant to Paragraphs 2.06 and 2.23 of Bursa Malaysia Main Market Listing Requirements. The directive requires all listed issuers to disclose the breakdown of the unappropriated profits or accumulated losses as at the end of the reporting period, into realised and unrealised profits or losses.

On 20 December 2010, Bursa Malaysia further issued guidance on the disclosure and the format required.

The breakdown of retained profits of the Group as at the reporting date, into realised and unrealised profits, pursuant to the directive, is as follows:

The disclosure above includes Integrax Berhad's (ITB), where TNB holds 22.12% shareholding, realised and unrealised profits for period as at 31 December 2011 and not 29 February 2012. This is due to unavailability of the information from ITB as it does not wish to contravene any Bursa Listing Requirements by releasing its financial information prior to its quarterly announcement.

The disclosure of realised and unrealised profits above is solely for complying with the disclosure requirements stipulated in the directive by Bursa Malaysia and should not be applied for any other purposes.
