15) REVIEW OF PERFORMANCE

- (a) Performance of the current period ended 28 February 2015 against the corresponding period ended 28 February 2014:

The Group recorded a 15.9% or RM2,922.1 million improvement in sales of electricity from RM18,406.7 million to RM21,328.8 million. The improvement was mainly from sales of electricity in Peninsular Malaysia and Sabah, which each recorded an increase of 15.8% and 17.4% respectively. This was the result of the increase in the average electricity tariff in Peninsula of 14.9% and Sabah of 16.9% effective 1 January 2014. Additionally, Peninsular Malaysia and Sabah both registered a growth of 2.8% and 2.3% respectively, as compared to the last corresponding period.

Profit attributable to the Owners of the Company for the period under review was RM4,508.1 million as compared to RM3,484.2 million recorded in the corresponding period last financial year, an increase of RM1,023.9 million or 29.4%. This was mainly due to the increase in total revenue of 10.6% as compared to a decrease in operating expenses of 1.7%.

The Group results do not take into account the impact of over-recovery of costs under the ICPT mechanism amounting to approximately RM1.5 billion (net of tax), subject to final confirmation.

- (b) Performance of the current second quarter (three months) FY2015 against the corresponding second quarter (three months) FY2014:

The quarter recorded sales of electricity of RM10,567.6 million against RM9,329.2 million for the same period last financial year. The increase was mainly from sales of electricity in the Peninsula and Sabah, which recorded an increase of 12.6% and 14.2% respectively, resulted from the increase in the average electricity tariff.

Profit attributable to the Owners of the Company for the quarter was RM2,156.2 million, an increase of RM422.3 million from RM1,733.9 million recorded in the corresponding quarter last financial year, mainly due to the reduction in the costs of gas as more coal plants were utilised during the period.

16) MATERIAL CHANGES IN THE QUARTERLY RESULTS COMPARED TO THE PRECEDING QUARTER

Performance of the current quarter (2nd Quarter FY2015) against the preceding quarter (1st Quarter FY2015):

The Group reported a lower total sales of electricity of RM10,567.6 million for the current quarter as compared to RM10,761.2 million in the preceding quarter, a decrease of RM193.6 million or 1.8%. It is shown in the decrease in demand growth of 1.4% in both the Peninsula and Sabah.

The quarter experienced a lower profit attributable to the Owners of the Company of RM2,156.2 million as compared to RM2,351.9 million recorded in the preceding quarter mainly due to a lower revenue in the current quarter and the strengthening of US Dollar against Malaysian Ringgit.

17) PROSPECTS

Given the prevailing global economic conditions and continuous volatility of foreign exchange, the Board of Directors remains cautious on the Group's prospect for the Financial Year 2015.
